'Mashed Potatoes' single released

We are excited to announce that ISIS Records has released Peter Hill's (Jam Dude's) new single '**Mashed Potatoes**'

The single is taken from Pete's new album 'The Fall and Rise of Zeet the Bum', recorded in the Biggleswade studio during August and September this year. 'Mashed Potatoes' is a good-time, rock and roll style song written for the American celebration of Thanksgiving, which is traditionally centered around a turkey dinner with corn and all the trimmings, including of course, mashed potatoes and gravy.

The album features a host of local musicians playing a wide range of musical styles on no less than seventeen of Pete's own songs.
